

PERDUE FARMS HEADQUARTERS

Salisbury, Maryland

SUCCESS STORY

CONSTRUCTION

DEVELOPMENT

This \$10.5 million project was a complete renovation of the poultry company's headquarters in Salisbury, Md. The building received LEED® Platinum certification – the highest possible rating – from the U.S. Green Building Council's (USGBC) Leadership in Energy and Environmental Design green building certification program, the first such designation on Maryland's Eastern Shore.

The 94,000-square-foot facility, which houses 570 employees, incorporated many elements to meet that certification including an energy efficient HVAC system that will reduce the building's energy expense by 25 percent.
